

Sociétés

In the city
without surroundings,
a child is looking for the sky.
She runs into many 'sociétés':
the bureaucrats, the strayers,
the musicians, the police, the
recyclers, ...

-- but each société is only
interested in their own,
radical project!

The **sociétés** project
creates open temporary spaces
where you can be a group of
radical people in an
utopian city.

The notion of 'normal' is nonex-
istant while you are in the so-
ciété.

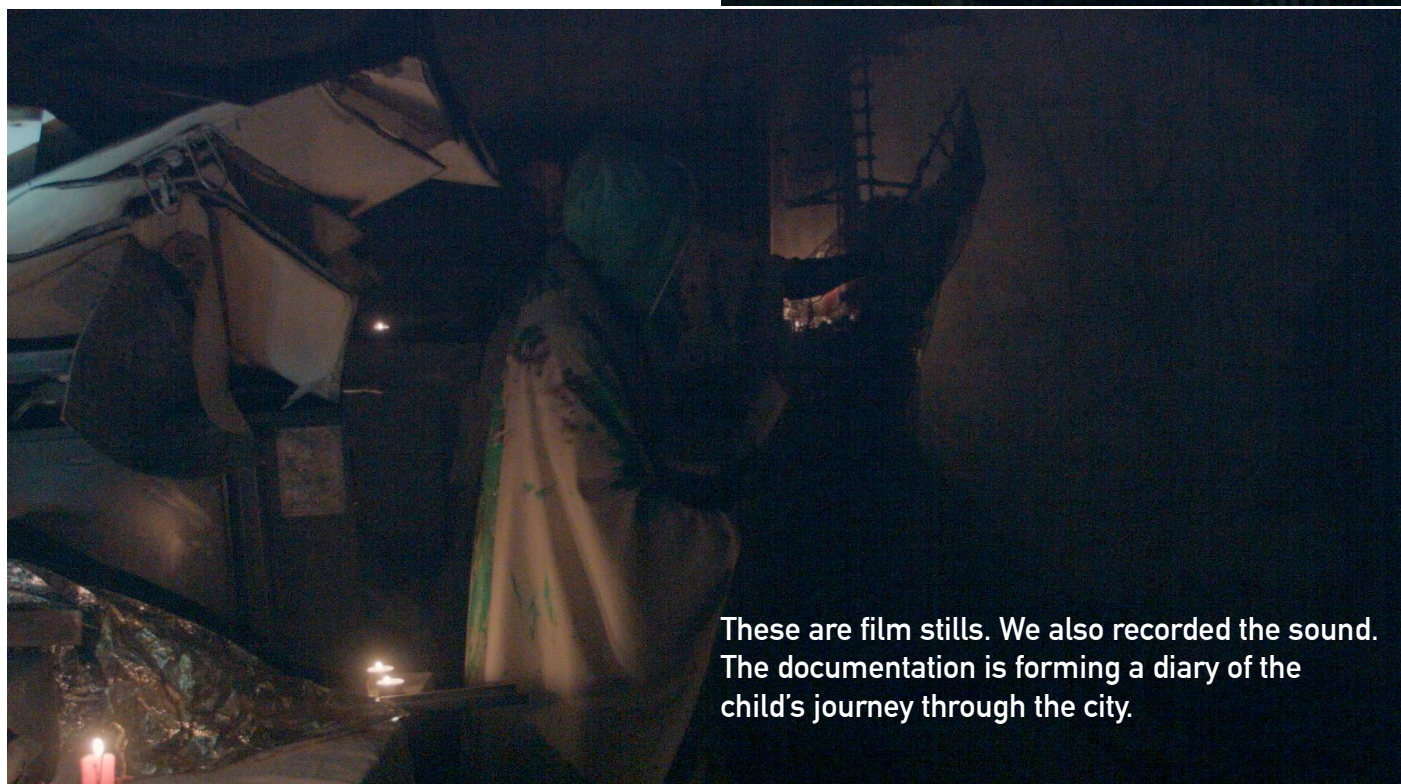

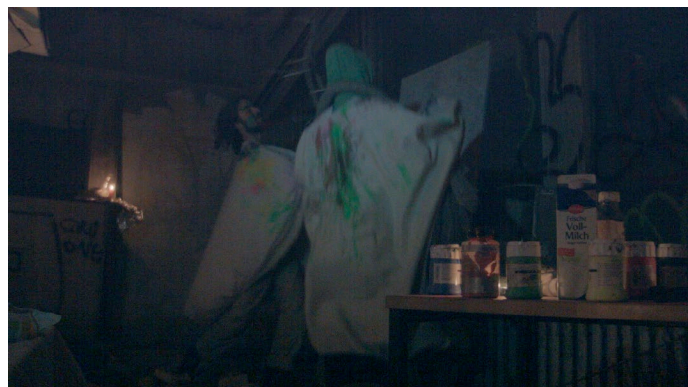

Things you find in the space
can become anything.

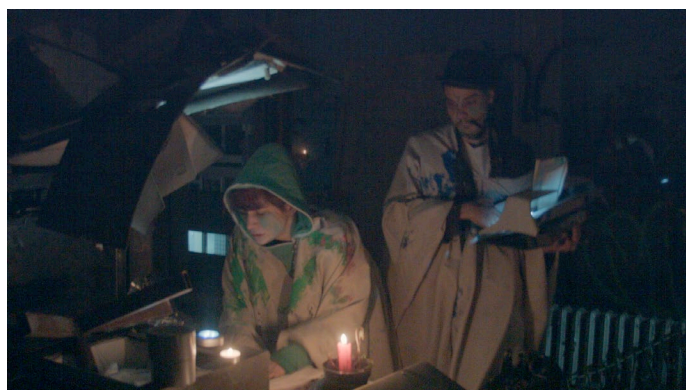

Here you see pictures from the
'Société de la bureaucratie.'

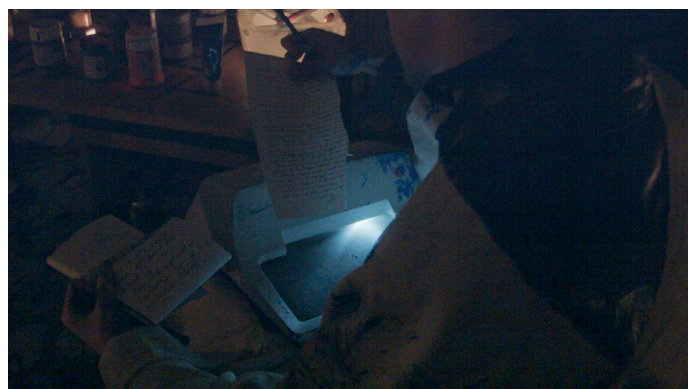

We were in the former Iraq Embassy
for three hours.

These are film stills. We also recorded the sound.
The documentation is forming a diary of the
child's journey through the city.

...obviously very devoted as
we are bureaucrats...

Things you find in the space
can become anything.
